LET EVERY DEMOCRAT VOTE.

Every Democrat should vote to-day is Virginia. In some districts, particularly the First, Second, Fourth, Eighth and Ninth, this is absolutely necessary to ensure the election of a real representative of Virginia's interests, and not one who say desert her at a vital moment. In other districts, notably this, the Third, the same precaution is necessary. Virginia should aid in swelling the great protest which is to be uttered at the polls against the Force

That infamous measure is not dead. It has passed one House and now awaits the action of the Senate. If it is not condemned by the voice of the people the plater against liberty will force it through the Senate as it was forced through the House Voters of the metropolitan district should also remember that the man who was occupying temporarily the seat of George D. Wise in Congress voted for the Force bill. That this was not the wish of the people of this district no one will deny, by returning Captain Wise to hi seat by a greater majority than he ever received will be the only way of properly vindicating the district. Be at the polls early, east your vote for George D. Wise, and see that every one of your friends does the

"The creed of the Democratic party is comprised in two ideas: First, to limit as much as possible all governmental power, enlarging always and everywhere the domain of individual Judgment and action, secondly, to throw back the governmental powers necessary to be exercised as much as possible upon the States and the localities, approaching in every case the individuals to be affected.

"These ideas dominate over the Democratic articles."

VIRGINIA'S POPULATION.

It is interesting to observe in the enume ation for the different counties of Virginia in the census just reported, that population has decreased in a number of counties, and increased in a number of others where the opposite was expected. In this respect the results of the census enumeration are as surprising as the results of the recent as-

MAIl of these counties lie within the general area of country where the highest degree of development is now in progress, and the growth in population is simply in accord with the growth in wealth which our State assessment disclosed in that section.

Population has, on the other hand, declined in those counties in which the State assessment shows a falling off in values. There has been a decrease in population of 208 in Culpeper, of 410 in Fauquier, of 268 in Greene, of 402 in Loudoun, of 367 in Madison, of 346 in Orange, of 695 in Rappahannock, of 621 in Spotsylvania. These counties enjoy unusual advantages as com. pared with other parts of Virginia in the point of soil, but they are dependent upon their agricultural resources for their prosperity, and the depression which has so long prevailed in every branch of the farming interests has had a serious effect in curtailing the growth of this population.

There has been a notable decline in the rge settlements of negroes, due to the number of the individuals of this race who have emigrated to other parts of the State | The erection of the Broad-street viaduct or to other States. There has been, in con- is a proposed improvement which is desequence of this fact chiefly, a decrease of manded now with an ever-increasing population in Amelia of 1,348, of 53 in Appomattox, of 1,189 in Buckingham, of 1,614 in Charlotte, of 1,087 in Cumberland, of 198 in will afford readier access than is now Lunenburg, of 1,140 in Powhatan.

On the other hand, there has been some increase in the population of several of these counties. Thus there has been an increase of 455 in Brunswick, of 3,290 in Dinwiddle of 840 in Halifax, of 710 in Mecklenburg, o 410 in Nottoway When it is recalled that there is an interval of ten years between the census enumerations this increase seems ex-tremely small.

There has been a large expansion of population in the general run of tide-water counties, notably in Elizabeth City, Lancaster, Middlesex, Nansemond, Northampton, and Accomac.

THE IRISH PATRIOTS.

The arrival of Messrs. Dillon, O'Brien, Harrington and Sullivan, the Irish patriots, in this country is an event of more than passing importance, not only on account of their great personal distinction, but also on account of the character of the mission which brings them to America. The objects which these gentlemen have in view is to explain the nature of the struggle.

Such is the condition of affairs in Ireland against which these distinguished representatives of Irish sentiment propose to raise a protest during their stay in the United States, in the hope of enlisting the United States, in the hope of enlisting the Interest of the American people more warmly in favor of the Irish cause. That they will receive a hearty welcome wherever they may appear admits of no doubt. The success of their mission is fully assured, for they will find sympathetic and approving ears in every quarter of the Union.

Gentlemen.—On my arrival here from my home, Bloomfield, Ky., the 11th of this month, I met my neighbor, Mr. John D. Wakefield, of Spencer county, Ky. Mr. Wakefield has, to my own personal knowledge, been in very had health for seven or eight years, and during that time treated by some of the most eminent physicians of Kentucky. His nervous system was affected, complicated with Bright's disease of the kidneys, and it appeared at one time that he would lose one of his kidneys entirely. He was as near death as a man possibly could be. He tried some of the celebrated mineral waters of this country and obtained only temporary relief.

He visited this place and has been using the Chase City Lithia Water since 24th of April, 1850, and, so far as I can now discover, he has complete relief. His complexion healthy, action improved, appetite restored, rest tranquil, and spirits revived. His general condition indicates a restored and invigorated man, attributable to the use of the Chase City Lithia Water.

Very respectfully,
JAMES R. HUGHES, M. D.
